PATHETIC GOOD-BY.

T. L. Clark's Note to His Family.

He Had Made a Desperate Effort to Finance the Santa Fe Central.

Left His All to the Bank, Except Life Insurance Left to Dear Ones.

Statement Found in Dead Man's Home Not That Held by Officials.

(BY THE ASSOCIATED PRESS—P.M.)

PITTSBURGH (Pa.) Nov. 1.—The following statement of T. Lee Clark, cashier of the Enterprise National Bank of Allegheny, written a few hours before he committed suicide, was made public tonight: "Dearest wife and children: In ten hours, or less, I will be in the other world. You have been a dear good wife to me. Andrews has worked my ruin. Dear wife, keep all the insurance for yourself and babies. How hard it is to leave you all. I have made a desperate effort to keep things going until I could get the road financed, but it has been too slow. The examiner is here and I am ruined. Do forgive me; it is not my fault. I have been shamefully robbed. The bank will get everything but the life insurance.

"Your husband. "LEE." Clark committed suicide the morning of October 18, and the above statement, written in pencil on one of the bank's letterheads, was found in the dead man's home by his 15-year-old daughter, and turned over to his attorney. It was evidently written at the bank the night before the suicide, when Bank Examiner Cunningham and Clark worked till midnight on the books of the institution.

The bank was closed by the Comptroller of the Currency the afternoon following Clark's suicide on advice from Examiner Cunningham. The above statement is not the one alleged to be in the possession of the Federal authorities. That one, friends of the dead cashier say, was to the government authorities, but its existence was being vigorously denied.

T. Lee Clark, the deceased cashier, was treasurer of the Santa Fe Central Railroad, of which W. H. Andrews was president. This road is in New Mexico, and is about 117 miles long, running from Santa Fe to Torrance, with a branch now projected to Albuquerque. The road connects at Santa Fe with the Santa Fe and the Atchafalaya, and at Torrance with the El Paso and North-eastern system. The railway was capitalized at \$2,500,000, and is bonded to the extent of \$2,500,000. Of this, \$2,000,000 of bonds have been issued, while \$500,000 have been kept in the treasury for betterments.

A dispatch from Franklin, Pa., tonight says: "The alertness of Receiver John B. Cunningham of the Enterprise National Bank of Allegheny has resulted in securing for the creditors that institution something like \$17,500, which was seized in a foreign attachment against William H. Andrews. Just before the close of business at the courthouse yesterday, J. H. Omer & Sons, attorneys, received a telegram from Receiver Cunningham, instructing them to attach all the real and personal property of Mr. Andrews in Venango county. The writ was issued, and was to be served by Sheriff McElhenney today.

"It directed particularly that all money and credits in the hands of the National Transit Company, through which the Standard Oil Company purchased its crude oil, be attached. It is understood that the receiver took this step upon learning that Andrews contemplated the sale of his oil property in Cherry Tree township, this county. That the sale had been planned is indicated by Andrews and his attorney, Eugene Mackey, arriving here at 2 o'clock this morning. They went to the Alsace Hotel, did not register, and instructed the clerk not to let anyone know that they were there. When the courthouse opened this morning, Andrews and his attorney learned that the attachment had been issued. However, they met Dr. Burchfield, the prospective purchaser, and after securing Receiver Cunningham's consent, the sale was consummated and the proceeds turned over to the receiver."

A dispatch from Meadville, Pa., says valuable real estate in Steubens, Rome and Oil Creek townships belonging to Andrews has been attached.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Nov. 1.—[Exclusive Dispatch.] Scratched by the teeth of a pet dog, Edward Brunner, aged 22, graduate of the Columbia University Law School, read medical books on rabies until he conceived the idea that the dread disease had seized him. Thrown into an acute hysteria, he began to simulate the symptoms of rabies; became delirious, and was taken to Bellevue Monday.

He jumped from a window, Monday night, but was uninjured, and died this morning from acute hysteria.

AT FEVER HEAT OVER TREATY.
BOTH SIDES ARE CLAIMING A VICTORY IN CUBA.

Rumor in Havana That the Secretary of State is Ready to Resign if He Finds the Measures Designed to be Defeated—Agrarian League's Favor.

(BY DIRECT WIRE TO THE TIMES.)
HAVANA, Nov. 1.—[Exclusive Dispatch.] Arguments over the Anglo-Cuban treaty have reached fever heat before the reassembling of the Senate, which will decide the question. Both sides confidently claim a victory. A rumor is in circulation in Havana, to the effect that the Secretary of State is ready to resign, if he finds the measures designed to be defeated.

Despite the strong protests made by the allied business interests, the administration continues to support the treaty, and the government organs keep up their attacks upon all who have been active in opposition to it, particularly United States Minister Squiers, against whom great bitterness is shown. The onslaughts on the United States Minister have been so widespread that they are generally credited to a high official source, though repeated allegations on this line have been denied.

Those most familiar with the situation say the administration thus far has hesitated to act openly against the strong interests combined in opposition to the treaty, but is undoubtedly in position to compel its passage, if it brings all its followers into line, demanding certain action.

AGRARIAN LEAGUE.
(BY THE ASSOCIATED PRESS—P.M.)
HAVANA, Nov. 1.—The Agrarian League has voluntarily given to the Committee on Foreign Relations of the Senate and to the newspapers a lengthy statement strongly favoring the ratification of the Anglo-Cuban commercial treaty.

"HAY LETTER" A FORGERY.
Senator Lodge Gives Lie Direct to Osborne Moves and Publishes Correspondence.

(BY DIRECT WIRE TO THE TIMES.)
BOSTON (Mass.) Nov. 1.—[Exclusive Dispatch.] Senator Lodge repudiates his declaration that the "Hay letter," alleged to have been written by him to a forger, and gives the lie direct to Osborne. He also published his correspondence with Secretary Hay on the fisheries question. Mr. Lodge explains the inside of the matter.

"It is not Mr. Howe's memory that is at fault. He does his memory an injustice. It was the fault of his power of invention. That letter he professed to give in letter form was a lie from beginning to end. He states what is unqualifiedly and absolutely false. When at the close of the 1902 campaign, I learned that a treaty was about to be signed which contained provisions I knew could not be accepted by our fishing interests, I telegraphed Mr. Hay asking him to withhold his signature until after election."

NOT SO MUCH COAL.
BOSTON, Nov. 1.—[Exclusive Dispatch.] The secret investigation conducted by a leading financial agency here proves the absurdity of the Sunday pictorial story in certain newspapers of the accumulation of 40,000,000 tons of anthracite in anticipation of a strike.

The Reading road has less than two million tons in stock, and as this is a representative showing, there would be less than 10,000,000 tons, or two months' supply. It would cost \$100,000,000 to mine and store 40,000,000 tons.

FINLAND INFECTED.

All Official Buildings Fly the National Ensign, and the Red Flag Also.

Thousands of Reinforcements Reported on the March from Thuley Camp.

(BY THE ASSOCIATED PRESS—P.M.)
HELSINGFORS (Finland) Nov. 1.—[By Atlantic Cable.] All the official buildings fly the red flag and Finnish national ensign. The police department is in the hands of the National Guard, part of which has been armed by the Russian authorities. Thousands of reinforcements are reported to be marching from Thuley Camp 15 miles away. Up to the present all is quiet, and order prevails, but a conflict is not improbable.

The city is crowded with outsiders, and numerous meetings are being held for the further discussion of the situation.

The Senate, believing that tranquillity cannot be maintained until the full legal order of things has been established, today resolved that the Emperor should be requested to summon the Diet to repeal the dictatorship, pending the establishment of freedom of the press and the removal of grievances connected with the military service. Finally, the Senate resolved that, as it no longer possessed the confidence of the people, new Senators should be appointed. The resolutions were signed by all the Senators, and were dispatched to the Emperor tonight by the cruiser Asla, together with the resignations of the Senators.

The movement for freedom is spreading throughout Finland. The strike continues; no newspapers are published, and higher prices of meat still prevail. The town's communication is interrupted with all railroad stations in Finland, and also with the towns of Tampere, Viiborg, Jyväskylä and Villmanstrand.

It being reported during the course of the day that artillery was approaching the town, a demonstration was presented to the commander of the garrison that, as the whole Russian people were fighting for freedom, the Finns were doing the same, and would regard the artillery as a hostile force. The commander replied that, while order was maintained, the troops would not interfere.

ASSOCIATED IN NEW FIELD

Combine After Fuel in Santa Luis Obispo Valley.

Twenty-two Hundred Acres Bought Near Ocean.

Fifty Barrels of Fourteen Gravity Oil Flowing.

STAFF CORRESPONDENCE OF THE TIMES. SANTA MARIA, Nov. 1.—The Associated Oil Company has entered a new field in the southern part of San Luis Obispo county by purchasing 2200 acres from B. M. Most of Luis Obispo. The transfer was made about ten days ago, the consideration being about \$100,000. The land is owned by W. A. Porter, general manager of the big combine. The deal is handled by Capt. J. A. McHugh, Fresno and Arroyo Grande, who himself is interested heavily in the tract.

The land lies about seven miles northwest of the town of Arroyo Grande, on the Pacific Coast. It is a tract of 2200 acres, of which about sixteen miles of Port Harbors where the great steamers of the Santa Maria oil for all parts of the world. Both the Southern Pacific and the Pacific Coast railroads run by land so that shipments can be made either.

INDICATIONS OF OIL. No wells have yet been drilled, on property adjoining the Tiber. Company, managed by Capt. McHugh, a well now down 100 feet. The first well was entered in the drill has gone through 80 feet of sand and gravel, and is now being made to test the capacity of the well. It is not yet known whether it will be done until greater depth is reached, so as to thoroughly test the sand as far down as it is possible to.

The oil is the heaviest yet found on the Coast with one exception. It is to 14 gravity, the same as that of Kern River, a strictly fuel product. The kind that the Excess desires for its locomotives. With the exception of the Sunset road product this is the heaviest in the Coast. It is put to any practical use. Indications are that it will be remarkably free from water, sand and all impurities.

This well is within a mile of boundaries of the Associated's in the Arroyo Grande, is drilling on a 200 feet in width on the face. At several points on the Arroyo Grande tract some oil seepage is visible. For a number of years the large extent and oil seepage are plentiful. The Logan Oil Company, originally in Santa Maria, has bought the Port Harbors, five miles north of Arroyo Grande, and is beginning to drill. Those interested are William Logan, A. M. Cox, A. M. McHugh, Thomas B. Clark, J. C. Kelly and Bagby, all of Santa Maria.

ANOTHER IN OIL SAND. The Oak Park, a company formed in Santa Maria, has bought a 1000-acre tract three miles northwest of Arroyo Grande.

A. M. Squire, who recently sold his interest in the Santa Maria Oil Gas Company to the Union, has bought a 1000-acre tract three miles northwest of Arroyo Grande. This is also a large tract east of this which he has bought a lease on.

Capt. McHugh has some 8000 acres in his own name in the field in addition to what is held by the two companies. The Tiber has, besides its other holdings, ninety acres on the water front at Santa Maria.

ASSOCIATED ON COAST. At Santa Maria, Arroyo Grande and San Luis Obispo it is understood that the transfer to Port Harbors was made directly in behalf of the Associated Oil Company, which is being transferred to Santa Maria through a subsidiary known as the Recruit and its work in the more northern field may be done in this way or in its own name or through a third corporation may be formed.

As the Southern Pacific has no right on the Coast Line the importance of the find may be great to the railroad, which is a long haul from Bakersfield or Los Angeles. Another point of importance is that there is no harvest of gravity oil produced where it is accessible to tide water.

CROOK IDENTIFIED. FACES THREE CHARGES.

Julius Berg, alias J. W. Davenport, was confronted yesterday with two charges of burglary and one of assault with intent to kill.

Berg's identification was established beyond a doubt. He is a suspected crook, from the Minnesota State Reformatory, where he was serving a long sentence for burglary.

Berg was arrested Tuesday afternoon after a sensational pursuit by members of the Santa-street engine company.

He is No. 26,454 and is signed "James K. Lynch, cashier." It is drawn on the Chemical National Bank of New York.

Crowan has references from Dun & Co., San Francisco, and is highly incriminated at his arrest. "The Santa-street engine company" has the appearance of a clumsy forgery.

Fraud in Cadillac Alleged.

SAN FRANCISCO, Nov. 1.—Col. Edwin May, the expert whom the contestants to the will of the late Samuel Davis brought from Washington, testified in the case this morning that he was sent for by the other side in March, 1904, but replied to them that, after examining the codicil, he found it so obvious a forgery that he could not accept their commission. The witness then denounced the evidence of alleged fraud in the codicil, on the genuineness of which the award of \$1,000,000 to one faction or the other of the warring heirs depends.

THE VALUE OF CHARCOAL

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after eating onions and other odorous vegetables. Charcoal effectively cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores and are though in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

ASSOCIATED IN NEW FIELD.

Combine 'After Fuel in San Luis Obispo Valley.

Twenty-two Hundred Acres Bought Near Ocean.

Fifty Barrels of Fourteen Gravity Oil Flowing.

STAFF CORRESPONDENCE OF THE TIMES.

SANTA MARIA, Nov. 1.—The Associated Oil Company has entered the new oil field in the southern part of San Luis Obispo county by purchasing 2200 acres from R. M. St. John.

The transfer was made about ten days ago, the consideration being about \$100,000, and the deed was made to W. R. Porter, general manager of the big company. The deal was handled by Capt. J. A. Milleburg of Fresno and Arroyo Grande, who is himself interested heavily in the district.

The land lies about seven miles northwest of the town of Arroyo Grande on the Pacific Coast Railway, and extends to within two miles of the ocean near Cave Landing. It is within about sixteen miles of Port Harford where the great steamers of the Standard and Union companies load with Santa Maria oil for all parts of the world. Both the Southern Pacific and the Pacific Coast railroads run by the land so that shipments can be made by either.

INDICATIONS OF OIL.

No wells have yet been drilled, but on property adjoining, the Tiber Oil Company, managed by Capt. McClurg.

A well now, down 1800 feet. At 1500 feet the first sand was entered and the drill has gone through 500 feet of continuous oil-bearing sands. At 1500 feet the well is flowing 15 barrels a day, the oil coming up between the right and ten-inch casing. No attempt is being made to test the capacity and it will not be done until greater depth is reached so as to thoroughly test the sand as far down as it is possible to go.

The oil is the heaviest yet found on the coast with one exception. It is 14 to 16 gravity, the same as that at Kern River, a strictly fuel product of the kind that the Export draws upon its locomotives. With the exception of the Sunset road product this is the heaviest in the State that has been put to any practical use. Indications are that it will be remarkably free from water, sand and all impurities.

This well is within a mile of the boundaries of the Associated's land. Outcroppings of oil sands are found here, 200 feet in width on the surface. At several points on the Associated's tract are found outcroppings of large extent and oil seepage are plentiful. For a number of years there have been considerable interest taken in the oil indications by people in San Luis Obispo, Arroyo Grande and vicinity, but it was impossible to get any capital sooner and the oil business is already essentially one for men of large means and is in fact being sold at a price that is only by great corporations who possess the facilities for marketing the product. The well is in Price Canyon two and a half miles from Pismo ranch.

ANOTHER IN OIL SAND.

Seven miles east of Arroyo Grande the Perpetual, another company managed, Capt. McClurg, is down 1200 feet on a well which entered the first sand last week. It is impossible to get any idea as yet of the extent of the find.

The Logan Oil Company, organized in Santa Maria, has bought the Patchett ranch, five miles north of Arroyo Grande, where a big big well is being drilled. Those interested are William Logan, A. M. Cox, A. M. McNeil, Thomas Boyd, J. A. Milleburg and Dr. Bagby, all of Santa Maria.

The Oak Park, a company formed in San Luis Obispo, is drilling on the latter ranch three miles northwest of Arroyo Grande.

A. M. Squire, who recently sold all his interest in the Santa Maria Oil and Gas Company to the Union, has bought a large tract east of this which he held under a lease some five years ago.

Capt. McClurg has some 5000 acres in his own name in the field in addition to what is held by his two companies. The Tiber has, besides its other holdings, ninety acres on the water front at Cave Landing.

ASSOCIATED ON COAST.

At Santa Maria, Arroyo Grande and San Luis Obispo it is understood that the transfer to Mr. Porter was made directly in behalf of the Associated.

The latter has been in the oil business since 1890, when he was a partner in the Santa Maria through a subcompany known as the Recruit and its work in the more northern field may be done in this way or in its own name or a third corporation may be formed.

As the Southern Pacific has no fuel on the Coast Line the importance of the find may be great to the railroad by saving a long haul from Bakersfield or Los Angeles. Another point of importance is that there is no barrel of 14 gravity oil produced today where it is accessible to tide water.

ASTONISH THE NATIVES.

That's What the Southern California Horticultural Association's Exhibit is to Do.

One hundred and six society matrons and maids are on the list of patronesses for the first annual exhibit of the Southern California Horticultural Association, which opens tonight in Blanchard and Symphony halls and will be continued through Friday and Saturday evenings. It will be at least a thing of beauty, not a joy forever.

A musical programme will be a nightly feature. This evening the Ensemble Club, Mrs. Gertrude Parsons, director, and Miss Myra Steele, accompanist, will give Hayley's "A Song of Seasons." Tomorrow's programme is Schubert's "Serenade," Grieg's "Solweig's Song," Grieg's "The First Primrose," and "The Last Departing."

Tomorrow night the Schoolmasters' Club, J. R. Paulin, director, will entertain the visitors with "The Absence" (Ruck), "The Bella of Seville" (Jude), "Annie's Love" (Young), "The Lover" (Koschitz), "My Love Sleeps" (Lynes), and "The Kerry Dance" (Malloy).

Saturday night La Golondrina Club, E. R. Plummer, director, will make for the guests the music of "El Sombrero Blanco," "La Golondrina," "La Jota," "La Paloma," "Jarabe" and "Los Comederos."

Tonight will be "Bouquet Day," a brilliant bouquet, bouquets in general and bouquet-making on the stage by Borke, being the special feature. Friday night is set down as "Decorative Day," there will be six dining tables, fully laid and embellished with flowers and greenery. Saturday night will be "Basket Day,"

A Big Tea and Coffee sale. Enormous Premiums Free. Don't miss this sale. It will save you lots of money.

with all sorts of lavish floral baskets to display the skill of professional florists in design and arrangement. All of these special features will be competitive. Ten fine cups and a Horticultural Association pin being the collective reward of the winners.

Blanchard and Symphony halls are now being rarely and bountifully festooned and backgrounded for the show, which, it is whispered, will astonish even the natives.

POLITICAL.

HAS JORDAN GOVERNOR BEE?

LOS ANGELES POLITICIANS ON THE QUI VIVE.

City Will Furnish Candidate for Clerk of the Supreme Court—Talk of Non-partisan Movement in the Next City Election—Court House Jobs.

When the next city election comes off, a non-partisan ticket will be put before the people on the plan of the non-partisan school board.

This movement is now taking shape. The Republicans in office, or wanting to be, denounce it as a campaign scheme of the Democrats.

With a cynical grin, do local politicians receive the announcement of the retirement from politics of that singular character, Frank C. Jordani, now clerk of the Supreme Court.

His announcement is suspected to be a gold brick. It is believed, as a matter of fact, that he wants to be Governor.

Not long ago, one of his intimate friends let it out at a law banquet given in this city.

His successor as clerk of the Supreme Court will probably come from this city. No candidates have thus far come forward, however, beyond the mention of County Clerk Keyes.

A conspiracy is being concocted in the Republican county machine for an awful slaughter of "present incumbents" at the coming county election. It is a long time yet, a year and a week, before the election; but the underground mines are being put in place for the explosion.

The determination is to make a clean sweep of every office in the Courthouse. That some of the present officials have exceeded all previous records for efficiency, is regarded as being interesting but not important.

The first article in the religion of the "push" is that "four years is enough."

City Prosecutor George Beebe will be one of the strongest candidates for District Attorney. Capt. Fredericks probably being a candidate to succeed himself.

County Clerk Keyes has incurred the everlasting ire of the job hunters. Upon his election, instead of turning out the deputies of the previous administration who had learned their jobs, he made no changes in the office force. How from the watering jaws of the political world.

Calvin Hartwell, present County Recorder, is the interrogation mark, hovering over the future battlefield. He wants something but he doesn't know what. Maybe it is, Sheriff, but he is hesitating to feel that it may be only his present job for another term. He is as anxious as anyone over his own perplexing symptoms.

D. C. McGarvin, the present Public Administrator, will not be a candidate for reelection. He will retire to practice law.

Louis Schwabe, the City Auditor at the present time, will be a candidate for the county office.

FALL CATARRH

Disease Prevalent Now, But Can Be Quickly Cured With Hymel.

A great many people suffer more with Catarrh during the fall months than at any other season of the year, the changes in weather seeming to have a bad effect upon the disease.

Some of the cures made by Hymel seem marvelous when one remembers that the patients had suffered with Catarrh since childhood, and that for years they had been unable to get a good night's sleep, on account of the disagreeable tickling and dropping at the back of the throat caused by this offensive disease. A few days' treatment with Hymel brought quick relief, and its continued use made a complete and lasting cure.

By breathing Hymel through the pocket inhaler that comes with every outfit, all the air passages of the lungs and throat are filled with air laden with Hymel's own remedies for the cure of Catarrh. All disease germs are killed, and the irritated mucous membrane is healed.

The complete outfit costs but \$1.00, extra bottles 50 cents. Compare this small expense with the fees charged by specialists.

If you cannot obtain Hymel of your dealer, it will be forwarded by mail, postage paid, on receipt of price.

Write today for a free sample bottle and consultation blank that will entitle you to services of our medical department without charge.

There were many thrilling moments, when the president issued the call for the original crusaders present to march to their feet, fully one hundred men responded and sang together "Rock of Ages".

The magnificent silk "L. T. L." prize, which has been held for the past year by West Virginia, was won by Michigan, and after its presentation the members of the senior legion

which under the control of the roads, has just been completed. The day has been employing a force of about a hundred men constantly, who will be laid off until next spring when work is to be recommenced. The longer line to Huememe will also continue to operate. Great plans are now for next year and many branches to the surrounding towns and farms will be built.

Consolidation Charter.

San Francisco's Experience
May Guide Los Angeles.

W. Thompson, Freeholder,
Tells of Great Fight.

W. Thompson, the widely-known member of the San Francisco and Los Angeles boards of supervisors, has made for The Times some timely and timely observations of the proposed consolidation of the city and county governments. WHAT COURSE HAVE HELD.

It has been held that there cannot be two municipal corporations at the same time in the same territory; but this means two legal and effective corporations exercising the same powers of government at the same time within the same territorial limits. In an early English case it was held that two corporations for the same purpose could not exist at the same time in the same territory.

THIRTIETH FOR CHARTER.

At the time of the consolidation of the city and county of Los Angeles, the people of Los Angeles were divided into two camps. One camp was for the consolidation of the city and county governments, and the other camp was for the maintenance of the present separate governments. EVENTS IN LOCAL SOCIETY.

BEFORE an altar of soft greenery and fair flowers, a lovely girl and a stunner young man exchanged the nuptial vows. Miss Roseanna Josephine Moore, one of the favorites of the younger set, becoming the bride of Paul Selby of Johannesburg, South Africa. The ceremony took place at the home of the bride's parents, Mr. and Mrs. Walter S. Moore, No. 1001 Mission avenue.

The drawing room, in which the ceremony took place, was adorned with the beauty of many white chrysanthemums and greenery. In the great open fireplace the flowers glowed, and above baskets of chrysanthemums were effective. In the round alcove at one

NEWS AND BUSINESS

"Blind Pigster." Ferdinand Edwards, an alleged "blind-pigster," who has been conducting a joint near Western avenue and Ramona street, was arrested at 11:30 p.m. last night. A well-stocked cellar strongly padlocked was found in Edwards' place.

Warrant for Autoist. Grant Bohannon of No. 1418 South Grand avenue was struck by an automobile driven by William Priest, No. 2306 Downey avenue, at Elsie and Main streets yesterday afternoon and was severely injured. A complaint was sworn out against Priest by Bohannon late yesterday and a warrant for his arrest issued.

Seized Children. At Terry, said to have terrorized children along the Santa Monica trolley line, was taken into custody by Patrolman Ziegler yesterday and up on a charge of insanity. Terry is said to have visited Los Angeles and secured from garbage cans sufficient food for his maintenance. He will be taken to the County Hospital today.

Dr. Quin's Troubles. Police Surgeon Quin is minus a new pair of black trousers, stolen from the Receiving Hospital supposedly by a "stray." The whole City Jail building is being ransacked for the doctor's covering for his underpinning. There are nearly two hundred prisoners in the jail, but Capt. Auble says he will find those trousers if he has to search every prisoner and corner in the building.

Auto Jumps Through Window. Yesterday afternoon an automobile owned by the Duryea-White Machine Company, No. 1112 North Main street, jumped through the windows of the Westinghouse Electric and Manufacturing Company, No. 237 East Main street, smashing into large sections of plate glass. It was a rented car operated by R. K. Hatch, an Alhambra youth without experience who had been asked to return it. He was severely cut by the shattered glass.

Deeds

Now that he's got it off his chest, the Car ought to feel a little better.
George Bernard Shaw's play must be a triumph when a New York policeman stopped it.
Wait until the Russians are soaked for poll tax. Then when the kicking will begin.

Anyhow, as long as they have the baby, there is still an autocrat in the Romanoff family.
No doubt Maxim Gorky's press agent will claim that it was Gorky's dramas that freed Russia.

William R. Hearst is now in his element. He has a following that holds the red flag.
The dispatches say the mobs in St. Petersburg "sang." This is what is called journalistic courtesy.

The signs thicken that Fiddler "Gene" Schmitt, like his fiddle and his bow, will be hung upon the wall.
At least reports Gov. Jeff Davis of Arkansas was still engaged in an effort to find out what struck him.

If Mr. Hearst could invent a bunch of those St. Petersburg students his campaign would then take on the color which he so earnestly desires to impart to it.
We rejoice to see that large numbers of the newcomers who are arriving here this year are going into the rural places and are taking up small holdings of land. It is a wise move, and such people are well advised.

Among other things that should go on just the same as though nothing had happened, is the institution known as the Holy Synod. It may not have the swing it formerly had, but there is really nothing to prevent it from being quite as holy now as it ever was.

Having served three Emperors, Uncle Pobodnostoff is likely too much tried out to make a stab at starting in on the effort to serve his country.
Shaw made the mistake of supposing that Americans are just as willing to witness indecency on the stage as in private life.

Shaw's new play being described as an affront to decency, it may now take its place in the same category with Hearst's campaign for the New York Mayorship.
No matter to what extent the people may carry things, at least baby Romanoff will continue to regard the Car as "the little father."

Little love being found objectionable in a drama, the playwright might now try and see how it would pay to work in an illicit distillery or two.
Every one in while the papers contain accounts of the mystery of a missing girl, just as though the average girl weren't a mystery whether she is missing or not.

Those Russian students seem to be students of fervent only. M. Witte's first move should be to whip them back to their books.
Let us not worry about New York. When the votes are counted it will be seen how small a part Anarchist Hearst plays in the life of a free people who love law and order.

The weather man and the tree too are "reluctant." But if you'll see they'll fetch 'er, too, before many more days.
Perhaps it might be just as well to tell the Cubans right out, that if they don't want their island annexed to the United States the thing for them to do is to behave themselves.

Hearst would display better taste if he used green flags instead of red ones in his New York campaign. The larger percentage of the population of New York is Irish and not Socialist.
Our old friend Pobodnostoff was always regarded as being somewhat bright in his manner. And he is no doubt as much more so now that he is fairly close-fisted.

The reason the extremists have no faith in a Congress meaning true freedom to Russia is doubtless due to impressions gained by Muscovites who happened to get in London with Uncle Joe Cannon in the Speaker's chair.
Mr. Jerome promises, if reflected, to prosecute the life insurance looters. This would have the votes of the McCalls and the McCordys families right at the start.

When a hardshell reactionary like old Pobodnostoff backs water, the tide must be running pretty strong the other way.
Nicholas II is no longer an autocrat, but he doesn't look any the worse for it, and besides, he must be a lot happier.

The readers of Hearst's papers may find it interesting to compare the votes he is getting now, for Mayor of New York, and the votes he will receive on election day.

The destination of some of the automobile scorchers.

These conflicts have wasted hundreds of millions of capital which can now be fairly measured by the enormous national bond issues of the last few years. Very likely these drains upon the floating supply of capital would have been met without difficulty had it not been for the extraordinary activity of business; but the repulsive wheat crop, a good corn crop and all the lesser crops are being moved and New York scarcely knows the movement is going on. The South needs a little money to get the cotton crop to market, and is getting it with moderate ease. How is this? Ten years ago every farm in the West, almost, was burdened with a big mortgage. The western banks were drained dry of ready money, the farmers were forced to rush all they had for sale to the banks to get money to pay harvest expenses and interest on borrowed money. There are few mortgages on western farms now. On the contrary the banks all over the West have money for every purpose except to burn.

THE SITUATION IN RUSSIA.
What is to be the ultimate effect upon the Russian people of the Czar's manifesto granting civil and religious liberty and a Parliament with plenary powers?
It is not possible at this moment to answer the above question with any certainty of correctness. All is confusion at present. The time which has elapsed since the issuance of the manifesto is too short for the formation of any very definite conclusions. One of the chief among the present dangers appears to be that the radical elements of Russian society—the Socialists, the anarchists and other extremists—will commit such excesses now that the restraints of authority have been somewhat relaxed, that the employment of the strong arm of military power may become absolutely necessary for the restoration of order. That order must be restored and sustained before the program of the manifesto can be made towards the establishment of the new regime, is a self-evident fact.

BOGUS COPPER SORRY FRAUD.

PLAYS OFFICER AND FINDS TROUBLE IN PASADENA.

Now He Is Lamenting That He Did It
And Says He Won't Do It Again.
Maye Suit in the Courts—Purchase
of Hotel Property—Flying High-
wayman Policeman's Target.

PASADENA, Office of the Times, Nov. 2.—Haley Tuttle's little fun of impersonating an officer "Halloween" night has cost him at least one day in jail, and now he is sorry he did it. He will never do it again, and has thrown away his deputy constable's star in disgust.

Tuttle, who was 19 yesterday, apparently innocent, he would have some fun on the evening of All Saints' day, and to that end went into a pawn shop in Los Angeles and purchased a deputy constable's star.

That night he came across young Sherman Waller out on East Colorado street, and, seeing the latter's electric light, he thought it was a good thing to accompany the tin-star role, so forthwith he exhibited his badge of authority to the nonplussed Waller and demanded that he take him to his home. Although he could see no reason for having to deliver himself of one of a lad's most prized treasures, young Waller was apparently used into submission by the officer's lowering face, and star.

Yesterday morning, Waller reported at the police station that he had been held up the night before and robbed of his flashlight by a stranger posing as a deputy constable. In a few hours Tuttle was under lock and key. Patrolman Joseph Schultz making the arrest.

Incidentally Tuttle is a tradesman, and lives with his parents on Chester avenue. He admitted yesterday that he was the right man, and seemed to regret his mistake. He was taken to the court this morning to answer to a charge of impersonating an officer.

MAYO SUIT IN COURTS.
Acting as trustee for creditors, the Los Angeles Trust Company has begun suit in Federal court to recover money owed by Mrs. Mayo. The company has been disposed of by Mrs. Mayo, who has failed to pay the company's bills.

The papers filed claim that a note for \$250 given to C. C. Foster was secured by a mortgage on the property of Mrs. Mayo. The note was dated October 25, 1904, and was for \$250. The property was located in Los Angeles.

SIERRA MADRE.
NOTES AND PERSONALS.
SIERRA MADRE, Nov. 1.—Prof. Hart's twelve acres on Central avenue was sold last week by the Sierra Madre Realty Company, to Los Angeles purchasers. The new owners will improve it at once.

J. R. Aspinall has sold two lots to the Sierra Madre Realty Company. They will build a \$5000 home. A party of Pasadena young people was entertained by Gertrude Cook Saturday evening.

Mrs. Frances M. Britton has returned from Hermosa Beach. Mrs. Britton is the wife of Mr. Britton, who is a resident of Pasadena.

SANTA MONICA.
BUTS MARQUEZ RANCH.
SANTA MONICA, Nov. 1.—Robert P. Jones has purchased from Manuel Marquez a ranch, consisting of 825 acres, situated just north of Santa Monica Canon and opposite the Port Los Angeles wharf of the Southern Pacific. This land has a beach frontage of almost a mile, and about 700 of its acres are under cultivation.

The state consideration is a little above \$100,000. By a vote of three to one, the electors of Santa Monica yesterday declared themselves in favor of a bond issue of \$100,000. There was an average vote of 375 for and 85 against each of the six items of the budget. The latter included \$27,500 for a septic tank for the treatment of the city's sewage and extension of mains, \$15,000 for storm drains, \$15,000 for new bridges, culverts, retaining walls and filling ravines, \$17,500 for engine houses and fire apparatus on the north and south sides of the city, and \$10,000 for an incinerator for the disposition of garbage.

LONG BEACH.
SELL ANOTHER FRANCHISE.
LONG BEACH, Nov. 1.—The City Trust company today sold a franchise for a street railway, extending from Seaside Park westward to block 20 of the East San Pedro tract, a distance of about five miles. The Pacific Electric, represented by S. W. Haskins, presented a sealed bid of \$100,000. W. L. Porterfield bid \$250,000, presenting a certified check for \$100,000. The bids advanced by 10 per cent raises until Attorney Haskins bid \$775. Then Mr. Porterfield discovered that he would probably have an elegant on his hands, as the road runs along the beach, south of the Salt Lake tracks and the Pacific Electric occupies the only public right of way from that point to the center of the city. He would need a franchise for all the street cars he would want to run. The franchise was awarded to the Pacific Electric. The money was paid at once and a resolution was adopted awarding the company the franchise. An ordinance regulating the operation of the road was also read the first time. Manager Schindler has assured the Terminal residents that he will begin work at once and prosecute the work early completion, thus bringing West Long Beach in close touch with the center of the city.

SEASIDE RUMBLINGS.
The trouble between the city and the Nelson Navigation company have been satisfactorily settled by the surrender of the Navigation Company. A conference was held this afternoon between the trustees and the company. The latter agreed to and did pay all back charges to date amounting to \$250. The company will at once discontinue the suit against the city. On its part the city agreed to repair the landings and fix them so that they can be raised or lowered with the tide and resender the wharfage to 1 cent a passenger or 4 cents on the dollar. The agreement will go into effect Thursday or Friday.

Property owners on the beach today petitioned the city trustees to erect a bulkhead from Pine avenue to Alamitos, fifty feet south of the cement walk, the space between to be filled with clean sand, making the street the present beach. The property owners are to stand the expense.

Active work began today on the extension of the Pacific Electric from Long Beach to Wilmington. Preparations are complete for the residents of the home country made up of Donatelli's band. At 4 o'clock a luncheon will be served followed by an automobile ride to the city. Dainty shell souvenirs will be presented.

OCEAN PARK.
MAY EMPTY INTO SEA.
OCEAN PARK, Nov. 1.—The City Trustees hope to have reached a solution of the problem of emptying the sewage into the ocean. The laying of an outfall pipe from the septic tank into the ocean. This will dispose of the flow to which the residents of the home country made such serious objection. The deposit will be discharged so far into the sea that no objection is likely to be raised along the beach.

J. J. Whelan, from Melbourne, Australia, has been given permission to operate a corps of Jirikachas along the beach. He has also secured a permit from the city to operate surf boats.

The Times agency headquarters for Ocean Park will hereafter be located in the home and stationary store of Charles M. Schlatter, No. 171 Pier avenue. Home phone.

S. D. Bryan has removed to Los Angeles to make his home. I. A. Ewing has gone from Dudley avenue to his home in Monmouth, Ill. Dorsey Patton has returned from his visit to Chicago.

POMONA.
VALLEY CITY NOTES.

THE SMOKE OF PEACE!

Uniform quality—superior quality—formerly found only in the three-for-a-quarter class—in "Recruits" for your nickel. The American Cigar Company's new exclusive system of cigar-building makes this possible. Experts select only desirable qualities of leaf, to be scientifically treated in immense "stemmeries" in accordance with necessary, but heretofore unattempted processes of tobacco culture.

"RECRUIT"

CIGAR—5c.

"Fit for Any Company"

During the process of fermenting, the different varieties of leaf required to produce their rich, uniform flavor, are packed together for two years and thoroughly blended, to combine the good qualities characteristic of each grade. It is this scientific, exclusive method of fermenting and blending which develops the enjoyable, soft, smooth, "just-right" quality—altogether "Recruits."

"Recruits" are stationed wherever good cigars are sold.
